REVIEW OF MARKETS | \$4.00 per one hundred. FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Jan. 18.—The stock market, except for an initial heaviness in sympathy with London, which, in turn, reflected the weakness of the Now York closing yesterday, made practically an uninterrupted course upward. The gains were fractional in the general market, while the Grangers and minor specialties made substantial advances. Investment purchases were very heavy and largely concentrated in the Grangers. Early efforts to cause to concern. investment purchases were very heavy and largely concentrated in the Grangers. Early efforts to cause to continuance of yesterday's reaction lasted but a short time, as there was no evidence of important liquidation, and London sales of some 25,000 shares were well absorbed. Commission houses buying was renewed and the shorts were forced to cover in a number of stocks. The market was comparatively dull in the foremon and then gradually increased in activity and strength up to the close. The feeling in London improved and there were some repurchases of stock for that quarter.

St. Paul's increase of \$141,000 gross for the second week in January inspired more confidence in that group of stocks, and there was an increase of Western orders to buy compared with those of the last day or two, which had diminished. The possibility that Burlington might presently refund some of its

ished. The possibility that Burlington ished. The possibility that Burlington might presently refund some of its bonds on a lower basis, thus benefiting the stock, was much discussed, and Burlington rose over 5 points.

Traders, seeing the support extended to the market, successfully bid upprices whenever opportunity offered. Some times it was Federal Steel, other times Sugar or Manhattan. There were purchases of a number of the low prices, including Wabash, St. Louis Southwestern preferred and Minneapolis and St. Louis.

Among the inactive stocks which showed substantial improvements were Chicago Great Western 1st preferred and Norfolk and Western preferred. Current rumor that Tennessee Coal and Iron was negotiating for the sales of some of its property, presumably some of the railroad holdings, was accompanied by marked strength in that stock.

movements in the bond trading to-day, conspicuous among which was a rise of 8½ in Fulton Elevated 5's and 4 points in Burlington Convertibles. The general market showed decided strength all round. Total sales, \$5,105,000.

Government bonds were unchanged for all issues. The total sales of stocks were 845,100 shares.

NEW YORK COTTON MARKET.

New York, Jan. 16.—The market for cotton futures seems to have contracted some of the bullish fever prevailing in the stock market, prices to-day advancing 12 points with trading on a larger scale than has been noted in some time. The bulls were energetic throughout the day, being supported by bullish news from nearly all quarters and Liverpool in particular. The start was at about last night's prices, but bull supremacy soon asserted liself and by midday a rise of 7 to 9 points had been scored with shorts displaying great uneasiness. The later phases of the market were still more favorable, although at times there were reactionary periods under profit taking and concerted efforts by a few of the leading bears to start liquidation. The market was finally firm at a net gain of 7 to 11 points.

Public and private cables alike in-

ing bears to market was finally firm at a net gain of 7 to 11 points.

Public and private cables alike indicated a built turn of sentiment in the English market, the better feeling abroad resulting directly from reduced crop estimates and generally bullish news from this side. Futures advanced all day in that market, while sales of spot cotton were the largest in semetime. Southern dispatches were practically relterations of advices received earlier in the week, noting tardy farming operations, rapidly dwindling result stacks in planters hands.
